

Abdelrhman Ayman

SoftwareEngineer

Profile

Motivated graduate skilled in full-stack development using React and .NET and SQL. Built multiple projects and collaborated on backend initiatives through MSP and Masa Center. Looking for an opportunity to apply my skills and grow within a professional team

Education

Bachelor's at Information Systems Taibah Academy, Maadi

August 2022 - August 2026

Information Systems studies with coursework in programming, databases, and system analysis.

Internships

Backend Developer Intern at Sindbad, Cairo ,Maadi

July 2025 - October 2025 • [🔗](#)

Successfully implemented a unified email templating system, streamlining communication and reducing template duplication by 40%. Developed and integrated a Notification Module, enabling real-time user updates across different channels. Built AI-powered integration to enhance system features and improve automation within the platform. Refactored the order management flow, improving code readability, maintainability, and scalability. Contributed to building robust backend APIs with NestJS and Prisma, ensuring system reliability.

Projects

Video Meeting Application • [🔗](#)

Built full-stack video conferencing app using ASP.NET Core 8 and React with TypeScript

Implemented real-time video/audio calls using WebRTC and SignalR for participant tracking

Developed JWT authentication with role-based access control (Admin/User)

Created room management system with unique room codes and host privileges

Used Entity Framework Core with SQL Server and applied Repository pattern

Containerized the application using Docker (backend, frontend, and database)

PDF AI Generator • [🔗](#)

A microservices-based platform that uses OpenAI GPT-4 to generate educational content from PDFs. Built with .NET 8 (backend), FastAPI (AI service), and React + TypeScript (frontend). Handles Arabic text processing and PDF generation. Fully containerized with Docker Compose.

gamified-learning-platform-fullstack • [🔗](#) (NestJS, Next.js, PostgreSQL, Prisma, Tailwind CSS, GitHub OAuth, Nodemailer, Gemini AI) A gamified learning system with challenges, points, and leaderboard. Implemented authentication (JWT & GitHub OAuth), AI-powered chatbot, email notifications, and a responsive Next.js frontend with dashboards and admin panel.

Cairo

Skills

TypeScript, c# JavaScript,C++:

Backend: Node.js,.Net, NestJS, RESTful APIs

Frontend: React, TypeScript, JavaScript (ES6+), Bootstrap, Axios, React Router, HTML5, CSS3

Database & ORM: PostgreSQL, MongoDB, Prisma, Mongoose

Tools & DevOps: Git, GitHub, Postman, Cloudinary, Stripe, Vite,ProblemSolving->C++

Debugging & Code Optimization

Agile & Team Collaboration

Clean Code & Best Practices

Volunteering

Backend Development Volunteer at Microsoft Student Partners (MSP), Onlin May 2024 - August 2024

•Learned backend

development with Node.js, contributed to team projects using REST APIs and databases, and improved problem-solving and teamwork skills.

Java Development Volunteer at MASA Center – Taibah Academy, Cairo,Maadi July 2022 - November 2025

•Learned Spring

Framework, built small web projects in a team, and improved OOP and collaboration skills.
